Maryland Department of Health & Mental Hygiene / Office of Systems, Operations and Pharmacy

Maryland Medicaid Preferred Drug List

The PDL shown includes updates effective October 1, 2008. Only drugs that are part of the listed therapeutic categories are affected by the PDL. Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland fee-for service Medicaid patients. Note: For most multi-source products, the generic product(s) are usually preferred and branded innovator product(s) are non-preferred. Most branded PDL products that are new to market require prior authorization until they are reviewed.

Key: All lowercase letters=generic product; Leading capital letter=brand name product.

Note: A 72-hour emergency supply of a non-preferred drug is available by calling 1-800-932-3918. A 30-day emergency supply is available for atypical antipsychotic agents subject to step therapy.
