Preferred Drug List

The Maryland Medicaid Preferred Drug List (PDL) shown here includes updates effective January 1, 2020. Only drugs that are part of the listed therapeutic categories are affected by the PDL. Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid participants. **Note: Brand names listed in parentheses are only listed as a reference.**

For most multi-source products, the generic products are usually preferred and the branded innovator product is non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as “**(generic only)**”. PDL products that are new to market require prior authorization until they are reviewed.

Key: Products in **red print, bold and underlined = PDL change**; all lowercase letters = generic; Leading capital letter = Brand name

Note: A 72-hour emergency supply of a non-preferred drug is available by calling 800-932-3918. A 30-day emergency supply is available for Tier 2 and Non-preferred Antipsychotic agents (more information is available on page 16).

Generic vs. Brand Status on Maryland’s Preferred Drug List

Maryland Medicaid’s Preferred Drug List (PDL), encompassing over 1800 drugs, covers most of the generic versions of preferred multisource brand drugs without any type of prior authorization. If the prescription for a brand name drug is to be dispensed as written, the prescriber must complete and submit a Medwatch form (<https://mmcp.health.maryland.gov/pap/docs/Maryland%20Medwatch%20Form.pdf>). The State’s clinical pharmacy team will review the Medwatch form and notify the prescriber whether the request for the brand name drug was approved or denied. The State will forward the Medwatch form to the FDA when appropriate. The Office of Pharmacy Services (OPS), formerly known as the Maryland Medicaid Pharmacy Program, wants to alert you to changes in the exceptions to this rule that are included in the attached updated Preferred Drug List. **Effective January 1, 2020, brand Lyrica® capsules are no longer preferred over its generic equivalent (pregabalin capsules).** Claims for pregabalin capsules will be handled in the same manner as claims for other multisource medications. Claims for brand Lyrica® capsules will adjudicate only if there is a prior authorization based on an approved Maryland Department of Health (MDH) Medwatch form (link above). Refer to our website for a complete PDL at: <https://mmcp.health.maryland.gov/pap/Pages/Preferred-Drug-List.aspx>

Not all Generics are Preferred

In order for the State to enhance the benefit of the Preferred Drug List (PDL), in some instances when manufacturer rebates are taken into consideration, the multisource brand name drug is preferred over its generic equivalent because the branded drug is more cost effective to the State than its generic counterpart. When the brand name drug is preferred, no Medwatch or authorization is needed¹. Enter a DAW code of 6 on the claim to have it correctly priced. If any problems are encountered during the on-line claim adjudication of Preferred Brands, contact Conduent’s 24-hour Help Desk at 800-932-3918 for additional system overrides related to the use of the correct DAW code (For example, when there is other insurance).

Atypical Antipsychotic Agents: 30-day Emergency Supply

When the prescriber is not available to obtain prior authorization for an antipsychotic medication that is non-preferred or second tier, the pharmacist can obtain a one-time only authorization to dispense up to a 30-day emergency supply. Do not let patients leave the pharmacy without medication if there is concern that the patient will be unwilling or unable to return at a later time that day after prior authorization is approved.

To obtain authorization for an emergency supply of an antipsychotic, call Conduent Technical Assistance at 800-932-3918. During the 30-day window, the pharmacist must notify the prescriber of the need to obtain a PA before the prescription can be filled a second time and make a note for his or her records of the date, time and person contacted at the prescriber's office.

Tier 2 and Non-Preferred Antipsychotic Review Process

All claims for Tier 2 or non-preferred antipsychotics for patients age 18 or older require authorization. The claim will deny at point of service and will not process. An electronic message will display on your system with instructions as to how to proceed.

The Tier 2 and Non-Preferred Prior Authorization Form can be found at:
<https://mmcp.health.maryland.gov/pap/docs/ANTIPSYCHOTIC%20PA%20FORM%20.pdf>
